Arta miniaturală din situl de la Porţ-Corău: statuetele antropomorfe. Studiu preliminar

Abstract:

The last three research campaigns (2010-2012) from the Porţ site known as Corău have brought to an increased number of miniature pieces, pointing out in particular the nearly 100 anthropomorphic statues or fragments of anthropomorphic pottery. Although most of the statuettes belong to the types already known in the literature, we note the emergence of new types which complete the repertoire of pieces and sometimes give clues about the cultural influences that have made their place in the community / communities established in this area.
